

**Behavior Analyst
The May Institute
Fort Hood, TX**

May Center for Autism Spectrum Disorders in Fort Hood, TX, is currently seeking a **Behavior Analyst** to supervise the education and treatment in the home and or/school setting for students with developmental disabilities and severe behavior disorders. This is a full-time, salaried position with after-school hours.

Responsibilities:

- Complete direct service hours as assigned by supervisor
- Plan for discharge of students from the home program
- Observe and analyze behavior, evaluate progress, and coordinate activities
- Engage in ongoing training and development of skills in the fields of Applied Behavior Analysis, Autism Spectrum Disorders, and Special Education

Requirements:

- Bachelor's degree in a related field; Master's degree preferred
- BCBA/BCABA certification
- Ability to develop educational programs that teach new skills and eliminate problem behaviors
- Ability to supervise and train Behavior Specialists as well as families
- Ability to work cooperatively with and manage other staff members to provide a structured setting for learning new skills and eliminating problem behaviors
- Ability to make appropriate, clear decisions during emergency situations while exercising good judgment regarding safety and health concerns
