

The **Behavior** Exchange

Learn. Interact. Achieve.

---

# The Behavior Exchange is looking for new team members!

- Do you have the desire and passion to work with children with autism and other disabilities?
- Do you have a strong technical background in ABA or \ coursework in ABA?
- Do you have clinical experience?
- Are you looking to use your technical know-how in an applied setting?
- Are you interested in a leadership position to help design and implement interventions, programming, and trainings?

Center based ABA therapy:

The Behavior Exchange offers individualized, early-start therapy and education programs for children of all abilities and ages, including those with attention deficits, autism, language delays, behavioral issues, learning differences and other special needs. Treatment is highly individualized for each child's needs and can include one-on-one sessions, group therapy, or training in real-life situations.

Parent, family, and school trainings and consultation:

The Behavior Exchange works with parents and families to not only be aware of their child's programming, but to be an integral part of it. We also work hand in hand with school districts, schools, and teachers to create programming for individuals with behavioral needs that will help them to be successful.
