

Full-Time BCBA's/BCaBA's/RBT's – Killeen/Fort Hood, TX

Our Client believes that anyone can learn. It is their passion to create an environment where clients and their families can thrive. Their emphasis is clients with Autism Spectrum Disorder ages 3-21. They currently specialize in developing and delivering individualized therapy designed on the principles of Applied Behavior Analysis (ABA Therapy) and Skinner's Analysis of Verbal Behavior (VB). They focus on the development of behavior, language, social/play, academic, executive functioning and adaptive daily living (ADL) skills. They empower families to acquire the necessary skills to help transfer their child's learning across all environments. It is their overall goal to help clients have as much functional independence as possible.

Required Qualifications:

- Experience providing ABA therapy (Recommended)
- Pursuit of Higher Education (Recommended)
- Supervisor experience a plus but not required (BCBA)
- Maintain client confidentiality, protect personal information, and understand the importance of ethics
- Reliable transportation, valid driver's license, ability to pass background check/drug screening
- Determined, "Go Getter"
- Passionate about children, families, and impacting their lives
- Be reliable and on time, every day
- Outgoing and positive attitude that is contagious
- Outstanding communication and organizational skills
- Interest and ability to work as a team and be part of a team!
- Thrive and be responsible in a flexible work environment
- Fluency in communicating with parents!
- CPR Certification
