

Texas Association for Behavior Analysis

Directory of Behavioral Consultants

Prepared by DFW Area Autism SIG

Directory of Behavioral Consultants

This Directory of Behavioral Consultants is a product of the Autism Special Interest Groups of the Texas Association for Behavior Analysis. It is a collection of information regarding people who work as consultants for applied behavior analysis interventions for children with autism and other pervasive developmental disabilities. This information was obtained by soliciting entries from persons who describe themselves as functioning in that role. Invitations to provide this information were made in meetings of the Texas Association of Behavior Analysis (TxABA), at meetings of the TxABA Autism Special Interest Groups, and at other presentations related to use of applied behavior analysis with persons with Autistic Spectrum Disorder, plus persons known to be working as behavioral consultants were personally invited to provide information. The only restriction on inclusion was that the person or organization included in the entry have an ongoing base of operation in the region served by TxABA (i.e., Texas, Oklahoma, Louisiana, and New Mexico). Some persons or agencies were invited to submit entries but did not do so. Persons or organizations based out-of-state but consulting in the TxABA region were not included. Information regarding contact persons or organizations in the latter category can be obtained from organizations such as the Families for Early Autism Treatment (FEAT), particularly their website.

This directory provides the information as submitted after retyping for uniformity in format and ease of reading, without editing. The list is provided to people requesting information about persons who provide such services. **Neither Texas Association for Behavior Analysis nor the DFW Area Autism Special Interest Group indicates endorsement or evaluation of persons included on the list.**

Entries are arranged alphabetically for each of the areas of Louisiana, Oklahoma, and Texas from which entries were received.

Submission of additional entries is invited. Correspondence regarding this directory can be directed by postal mail to the TxABA office:

LOUISIANA: LAKE CHARLES AREA

Neither Texas Association for Behavior Analysis nor the Autism Special Interest Groups endorses or evaluates persons included on this list.

Consultant: Janice Huber, BCBA
Company name: Private practice- Milestones Learning Center
University affiliation: McNeese State University
Address: Director, McNeese Autism Program
4215 Beau Chene
Lake Charles, LA, 70605
Telephone number: 337-526-5231
e-mail: hhh4325@suddenlink.net

Relevant Education, Credentials, and Experience:

I have a Master's degree in Counseling from Louisiana State University and have completed graduate coursework in applied behavior analysis through the Department of Behavior Analysis at the University of North Texas. I received supervised experience in behavior analysis from a doctoral-level BCBA. I have been implementing applied behavior analysis since 2003 and became board certified in 2007. Services provided include: pre-intervention assessments, development of comprehensive ABA interventions, family and instructor training, program monitoring and revision, school consultation, development of interventions for specific skill instruction or problematic behavior intervention.

Other Relevant Information:

Both home-based and center-based interventions are provided. We provide services to school-aged children. We work primary, but not exclusively, with persons with Autism Spectrum Disorders. Our work emphasizes positively-oriented interventions. Our interventions address many types of behavior including verbal behavior, social interaction, play and leisure skills, daily living activities, pre-academic repertoire, classroom skills, academic skills, and problematic behaviors. All persons providing services under our supervision are trained in basic principles and procedures of behavior analysis and receive routine monitoring by a Board Certified Behavior Analyst. On occasion, group-based interventions are provided.

Shannon has over 10 years of experience providing services to individuals with autism as a teacher, private provider in the home, clinic and school settings. She also continues to provide classroom consultations, professional trainings for school districts, and teach university level coursework. Shannon is a member of APBA, ABA and many other professional organizations. 3 years of experience as BCBA and Program Manager for 1:1 ABA center. BCBA Certified. M. Ed., University of Texas, Austin. B.S., Special Education, University of Texas, Austin.

Other Relevant Information:

Founding Light Up the Spectrum has been a dream that I am excited to see become a reality. I consider myself fortunate to have found my calling in life at such an early age. I truly enjoy what I do and cannot imagine doing anything else.

I credit my passion for my work to my older brother Brad. Brad is 13 months older than me, a couple inches shorter than me, gets a twinkle in his blue eyes when he's up to something, and he sometimes cusses... even when he knows he shouldn't. He also has Tuberous Sclerosis and autism.

I knew I wanted to be a Special Education teacher by the time I was 4 years old. According to my mom and dad, I was a second mother to Brad. But for me, I was just Brad's little sister, just like I was Caitlyn's big sister. Growing up together in Houston, TX, I loved teaching both of them how to be good (and sometimes a little bad) which is what any good sibling should do! And throughout high school and even today, I have remained an active participant in Brad's program, training and everyday life.

It's my hope that Light Up the Spectrum will give me the opportunity to work with many more individuals and their families, doing what I love.

Relevant Education, Credentials, and Experience:

The executive director Erin has over nine years of experience working with children with autism spectrum disorders and related disabilities in the home, clinical, school, and community settings. She began working with children with special needs when she was in high school in Oklahoma and knew then that she had found her calling. She worked as an ABA therapist through the end of high school and throughout college. She transferred from the University of Central Oklahoma as a special education major to the University of North Texas, where she received her bachelor's degree in Applied Behavior Analysis. She then went on to become a BCaBA, and began a graduate program at UNT in Special Education with an emphasis in autism intervention. She worked through college as a program supervisor for home and center-based programs in the DFW area. She graduated with her Master's in Special Education and an academic certificate in autism intervention, and shortly after became a BCBA.

Other Relevant Information:

Spectrum Behavior Services offers exceptional behavior intervention services for children with autism or developmental disabilities in the DFW area. We utilize the principles of Applied Behavior Analysis and Verbal Behavior to target the reduction of problem behaviors and increase a variety of age-appropriate skills. Our comprehensive treatment program is conducted in the child's natural setting, such as his/her home, school, or community. We work together with family members and other professionals to develop an individualized program to fit your child's need.

Relevant Education, Credentials, and Experience:

I received a Ph.D. in Psychology from the University of Texas at Arlington, with emphasis in behavior analysis. Subsequently, I was a Post-doctoral Fellow in Pediatric Psychology in the Department of Behavioral Psychology of John F. Kennedy Institute of The Johns Hopkins University School of Medicine. I have over 30 years of experience in applied behavior analysis with people with developmental disabilities. I have participated in numerous research and evaluation projects, resulting in numerous professional presentations and publications. I am a Board Certified Behavior Analyst- Doctoral Level and am a former and current president of the Texas Association for Behavior Analysis.

Other Relevant Information:

I develop and oversee a number of in-home aba programs for persons with autism and PDD as well as other variations of Autism Spectrum Disorder. Typically, this work is done in the person's home; consultation and training at other sites are available. Additionally, I provide behavior analytic services for other populations (dealing with older children, adolescents, and adults as well), including work primarily addressing problematic behaviors. The emphasis in my work is on using positive reinforcement to develop functional, socially-valued behaviors, especially verbal and other social behavior. Services provided are consistent with the Behavior Analysis Certification Board Code of Ethics.

Andrea D. Cherry, M.Ed., BCBA, has an undergraduate degree in Psychology from The Pennsylvania State University, State College, PA and a Masters in Education from Bucknell University, Lewisburg, PA as an Instructional Specialist, specializing in Autism and related Autism Spectrum Disorders. Her thesis at Bucknell University was on Using the Language of the Eyes to Understand Theory of Mind Development in Normal and High Functioning Autistic and Asperger's Syndrome Children. Mrs. Cherry has also completed additional, post-graduate coursework in Applied Behavior Analysis (ABA) through the University of North Texas.

Mrs. Cherry has over 20 years of experience working with children and young adults with Autism Spectrum Disorders (ASD) and related developmental disabilities including: Asperger's Syndrome, ADD/ADHD, anxiety disorders, OCD and more. She has received extensive training in Applied Behavior Analysis (ABA) through Douglas Developmental Outreach Program at Rutgers University and the L.I.F.E program at UCLA. She has received additional training in social thinking through the Social Thinking Mentorship program in San Jose, CA.

Mrs. Cherry has been cross-trained in the principals of structured teaching espoused by the Treatment and Education of Autistic and Communication related handicapped CHildren (TEACCH) program at the University of North Carolina, teaching emotional regulation and coping skills using the 5 point scale, and has developed numerous structured, interactive teaching materials designed to teach academic and pre-vocational skills to both children and young adults with an Autism Spectrum Disorder (ASD) or related developmental disability.

Mrs. Cherry has previously worked for two large, suburban school districts in Texas where she developed and supervised programming for students with ASD. Additionally, Mrs. Cherry has worked in various private therapeutic settings as a 1:1 therapist, Lead Therapist, Case Supervisor and Program Director. She has given numerous trainings on autism, principles of ABA, data collection, pre-vocational/vocational development in young adults with ASD and Integrated programming modules throughout the state of Texas.

Other Relevant Information:

Relevant Education, Credentials, and Experience:

Autism Consulting Services is a behavioral consulting company dedicated to providing professional, evidence-based behavior services to children with autism or other developmental disabilities. Our services include clinical and consultation services, home and school program development, assessments and specialized workshops and training for parents and professionals.

Other Relevant Information:

In October of 2008, the Autism Clinic was opened and created to better serve the needs of the community by offering clinical services, direct on-site ABA therapy for children, and a center where local caregivers, school district personnel, and college students can come to learn about what is considered best-practice in regards to behavioral services provided to children with autism. At the Autism Clinic, your child will receive one-on-one instruction from their individual therapist, which includes weekly supervision from one of our Board Certified Behavior Analysts. We are currently providers or are in the process of becoming providers for the following: Aetna, Blue Cross Blue Shield of Texas, CIGNA, Humana (now Life Synch), TRICARE, United Behavioral Health, Mercy, and Magellan.

Ms. Hughes (Executive Director) founded Autism Consulting Services to serve the needs of families in South Texas and has over 12 years of experience working with children with autism spectrum disorders and other developmental disabilities. Ms. Hughes holds a Master of Arts degree in Applied Behavior Analysis (ABA) from The Ohio State University in Columbus, Ohio and is a board certified behavior analyst (BCBA). Prior to founding Autism Consulting Services, Ms. Hughes served as workshop coordinator and educational consultant for Behavior Analysts, Inc. working under the supervision of Dr. James Partington, providing trainings and clinical services focusing on teaching language and learning skills to children with autism.
